**Crisp County Power Commission**  
**AGRICULTURAL PROCESS SERVICE**  
**Schedule APS**

EFFECTIVE

Effective with Bills Rendered for the Billing Month of September 2022

AVAILABILITY

Throughout the Crisp County Power Commission’s service area from existing lines of adequate capacity.

APPLICABILITY

Applicable to establishments that provide processing or storage services of agricultural products to individually owned farm operations. For the purposes of this rate schedule, processing or storage service means that ownership of the product before, during, and immediately after processing or storage remains with the individually owned farm operations, and the processing or storage service provider is paid on a fee per unit basis. Individually owned farm operations that process or store their own product also qualify. Examples of types of operations that could qualify are cotton gins and vegetable or fruit storage facilities. More than fifty percent of the processing service provider’s business must meet these criteria in order to qualify. The customer will be responsible to the Company for any additional cost of installing and removing any equipment required to control, meter or deliver this service. This electric service shall be delivered at one point, at one standard voltage and metered at or compensated to that voltage.

TYPE OF SERVICE

Single or three phase, 60 hertz, at a standard voltage.

MONTHLY RATE

Winter - October through May Billing

Base Charge	@	\$23.33	Monthly
Energy Charge	@	5.4241¢	Per kWh
Demand Charge	@	\$6.57	Per kW

Minimum Monthly Bill: Base charge

Summer - June through September Billing

Base Charge	@	\$23.33	Monthly
Energy Charge	@	6.1669¢	Per kWh
Demand Charge	@	\$22.19	Per kW

Minimum Monthly Bill: Base charge

TERM OF CONTRACT

Five Years. Service hereunder subject to the Crisp County Power Commission’s Rules and Regulations for Electric Service.

RATE

310

**Crisp County Power Commission**  
**GENERAL SERVICE**  
**Schedule GS**

EFFECTIVE

Effective with Bills Rendered for the Billing Month of September 2022

AVAILABILITY

All territory served directly by the existing lines of adequate capacity.

APPLICABILITY

To all electric service of one standard voltage required on Customer's premises, delivered at one point and metered at or compensated to that voltage.

TYPE OF SERVICE

Single or three phase, 60 hertz, at a standard voltage.

MONTHLY RATE – ENERGY CHARGE INCLUDING DEMAND CHARGE

	Base Charge	@	\$18.93	Monthly
All consumption (kWh) not greater than 200 hours times the billing demand:				
	First 3,000 kWh	@	17.0364¢	Per kWh
	Next 7,000 kWh	@	16.0900¢	Per kWh
	Next 190,000 kWh	@	14.8242¢	Per kWh
	All Additional kWh	@	12.6602¢	Per kWh
All consumption (kWh) in excess of 200 hours and not greater than 400 hours times the billing demand				
		@	5.9150¢	Per kWh
All consumption (kWh) in excess of 400 hours times the billing demand				
		@	5.3240¢	Per kWh

Minimum Monthly Bill: Base charge plus 5.3240¢ per kWh plus \$9.47 per kW of billing demand in excess of 30 kW.

DETERMINATION OF BILLING DEMAND

The Billing Demand shall be based on the highest kW measurements during the current month and the preceding eleven (11) months. Demand measurements shall be taken with either mechanical or thermal-type demand meters at the Commission's option.

For the billing months of June through September, the Billing Demand shall be the greater of:

- The current actual demand or
- Ninety-five percent (95%) of the highest actual demand occurring in any previous applicable summer months, or
- Sixty percent (60%) of the highest actual demand occurring in any previous applicable winter month (October through May).

For the billing months of October through May, the Billing Demand shall be the greater of:

- Ninety-five percent (95%) of the highest summer month (June through September) or
- Sixty percent (60%) of the highest winter month (including the current month).

In no case shall the Demand be less than neither the contract minimum nor less than 5 kW.

UNMETERED NONSEASONAL SERVICE

Where the installation of metering equipment is impractical or uneconomical, monthly kWh may be estimated and billed at the above Monthly Rate.

TERMS OF CONTRACT

One (1) year.

RATE

Non-demand = 280

Demand = 200

**Crisp County Power Commission**  
**OFF PEAK SERVICE RIDER**  
**Schedule OP**

**EFFECTIVE**

Effective with Bills Rendered for the Billing Month of September 2022

**AVAILABILITY**

Applicable upon request as a modification of the General Service rate schedule when off-peak usage exists.

**ON PEAK**

The On-Peak period is defined as the hours starting at 2:00 PM and ending at 10:00 PM Monday through Friday for the billing months June through September (Summer months). The above hours in days on which the following holidays are observed shall be considered Off-Peak: Independence Day and Labor Day.

**OFF PEAK**

The Off-Peak period is defined as all hours not included above in On-Peak, including all weekends and billing months of October through May (Winter Months).

**DETERMINATION OF BILLING DEMAND**

The Billing Demand shall be based on the greater of sixty-five percent (65%) of the highest OFF-PEAK or one-hundred percent (100%) of the highest ON-PEAK 15-minute kW measurement during the current and proceeding eleven (11) months.

In no case shall the Billing Demand be less than the greatest of (1) the contract minimum or (2) 5 kW for "General Service" customers.

**METERING**

Where special metering must be installed specifically for the purpose of measuring off-peak usage, a charge of \$24.80 a month will be added to the customer's bill.

**Crisp County Power Commission  
OUTDOOR LIGHTING SERVICE (FLAT)  
NON-GOVERNMENTAL, CUSTOMER-OWNED SYSTEMS  
Schedule OL**

EFFECTIVE

Effective with Bills Rendered for the Billing Month of September 2022.

SPECIAL NOTE

Accounts on this rate will be moved to the Outdoor Light Service Metered rate beginning Fall 2019 and this rate will be discontinued.

AVAILABILITY

All territory served directly by the existing lines of adequate capacity.

APPLICABILITY

Applicable only to outdoor lighting by ballast-operated vapor lamp fixtures, either mercury (MV), high pressure sodium (HPS), metal halide (MH), light emitting diode (LED), induction, fluorescent, or any new lighting systems approved by the Commission – used to provide outdoor lighting, and with poles which conform to the Commission’s specifications. Applicable to Commission owned and customer owned systems. Service will be rendered only at locations that, solely in the opinion of the Commission, are readily accessible for maintenance.

MONTHLY RATE

1,500	593	SIGN9	\$58.53	1,187	SIGN18	\$127.33

EXPLANATORY NOTES

1. The Commission may, at its option, verify kWh by installing a kWh meter or a device to limit connected load.
2. The number and location of service points shall be as specified by the Commission.
3. In no case shall the Commission expend more than five (5) times the estimated annual revenue to be derived from the service.
4. The term “customer-owned system” means complete ownership by the customer of all facilities (including poles, fixtures, circuits, and disconnect devices) up to a point of connection to the Commission’s supply lines. The Customer shall provide (a) suitable mounting and wiring for a Commission-supplied photoelectric receptacle and (b) a weatherproof enclosure, if needed, for any Commission-supplied relay. The commission will supply the necessary photoelectric control.
5. If underground feed is required, a nonrefundable Contribution in Aid of Construction in the amount of \$100.00 for 75 feet or less of underground cable will be charged. For distances greater than 75 feet, an additional Seventy-Five Cents (75¢) per foot will be charged.

<u>Description</u>	<u>Type</u>	<u>Nominal Lamp Wattage</u>	<u>Estimated Monthly kWh</u>	<u>Flat Code</u>	<u>Monthly Rate</u>
Turnpike	MH/HPS	400	175	SL20	\$33.23

These lights are normally furnished with a special pole or base and underground service up to 100 feet. Additional underground length is furnished at \$1.00 per foot.

NOTES

1. "Without Pole" means luminaire can be installed on an existing distribution wood pole. For those lights where normal service is overhead, underground service will be furnished for an additional \$100 "up-front" fee, plus \$1 per foot for any underground service length above the first 100 feet. Where underground wiring is desired, and paving or other obstructions exist, the customer will be required to perform all trenching, install duct furnished by the Commission, backfill, and complete the paving to the mutual satisfaction of all parties concerned.
2. If a customer desires to substitute a special pole type for the regular wooden pole these are available at the following rates:
  - To substitute either a direct embedded fiberglass or concrete pole, add \$6.65 per month to the normal "with pole" rental fee.
  - To substitute either a steel or fiberglass pole mounted on a concrete base add \$13.27 per month to the normal "with pole" rental fee.
3. In the event the Commission is required to replace existing Commission-owned luminaire(s) with a different type luminaire(s), then the customer will be required to pay the Commission \$25.00 for each luminaire changed. Also, if a customer requires the Commission to install luminaries at greater mounting height than that which is achievable on existing wood poles or relocate poles and equipment, then the customer will be required to pay the Commission a Contribution to Construction to cover changing the pole to a taller one, rearranging the equipment to accommodate the greater mounting height or relocating poles and equipment.
4. The placement of lights will be mutually determined by the Crisp County Power Commission and the customer. After installation, if the customer requests light(s) to be relocated, then the relocation will be at the customer's expense.

5. Security lights existing as of February 1, 1983, will be billed according to the "W/O Pole" rates.
6. A service charge of \$25.00 for new installations of security lights will be required of renters and/or mobile homeowners who rent their lots.
7. A \$15.00 service charge will be required of any customer for connection of an existing security light.

RATE

Rental Light in addition to metered service = applicable metered service rate

Rental Light Only (no meter) = 410

Base Charge	@	\$22.80	Monthly
First 650 kWh	@	6.1799¢	Per kWh
All Additional kWh	@	9.4932¢	Per kWh
Demand Charge	@	\$11.74	Per kW

ENERGY GENERATED IN EXCESS OF CUSTOMER LOAD

Any energy which is generated that is in excess of the customer load at any time shall be purchased by the Crisp County Power Commission at the Power Commission's estimated average marginal energy cost.

SENIOR CITIZEN - LOW INCOME ASSISTANCE

Qualifying customers certified by the Commission will be eligible for a monthly bill discount of \$23.90. To qualify, the customer must be 65 years of age or older with total household income of \$14,355 or less per year, provided that the electric service account is individually metered and in said customer's name.

MULTIPLE SERVICE

Where two or more dwellings are served through a single meter, the General Service rate will apply.

LEVELIZED BILLING OPTION

The Customer may be offered the option of being rendered a levelized bill which has the effect of leveling the Customer's monthly billing amount. Details of this billing option are on file in the Commission office. This option is available only for separately metered dwelling units.

**Crisp County Power Commission**  
**SEASONAL AGRICULTURAL SERVICE**  
**Schedule SAS**

EFFECTIVE

Effective with Bills Rendered for the Billing Month of September 2022

AVAILABILITY

All territory served directly by the existing lines of adequate capacity.

APPLICABILITY

Applicable to off-peak season agricultural businesses including crop production, crop services, grain mill and oil mill operations, and wholesale trade in farm product raw materials where at least 85% of the annual kWh consumption occurs during the billing months of October through May. All electric service shall be rendered at one point at one standard voltage and metered at or compensated to that voltage.

TYPE OF SERVICE

Single or three phase, 60 hertz, at a standard voltage.

MONTHLY RATE

Winter - October through May Billing

Base Charge	@	\$36.29	Monthly
All kWh	@	11.4883¢	Per kWh

Minimum Monthly Bill: Base charge

Summer - June through September Billing

Base Charge	@	\$36.29	Monthly
All kWh	@	24.4336¢	Per kWh

Minimum Monthly Bill: Base charge

TERM OF CONTRACT

One (1) year.

RATE

**Crisp County Power Commission**  
**SEASONAL AGRICULTURAL SERVICE – TIME OF USE**  
**Schedule SAS-TOU**

EFFECTIVE

Effective with Bills Rendered for the Billing Month of September 2022

AVAILABILITY

Throughout Crisp County Power Commission’s service area from existing lines of adequate capacity.

APPLICABILITY

Applicable to agricultural production including storage, drying, curing, handling, grain mill, and oil mill operations and other agricultural related applications where at least 80% of the annual kWh consumption occurs in any six consecutive month period. The customer will be responsible to the Power Commission for any additional cost of installing and removing any equipment required to control, meter or deliver this service. This electric service shall be delivered at one point, at one standard voltage and metered at or compensated to that voltage and is available to any customer with an actual demand of less than 500 kW.

TYPE OF SERVICE

Single or three phase, 60 hertz, at a standard voltage.

MONTHLY RATE

	Base Charge	@	\$23.07	
				Monthly
All consumption (kWh) not greater than 200 hours times the billing demand:				
	First 3,000 kWh	@	17.8647¢	Per kWh
	Next 3,000 kWh	@	16.6817¢	Per kWh
	Over 6,000 kWh	@	5.3240¢	Per kWh
All consumption (kWh) in excess of 200 hours times the billing demand				
		@	5.3240¢	Per kWh

Minimum Monthly Bill: Base charge plus kWh charge

Consumption during the on-peak period shall cause a surcharge of 21.2958¢ per kWh to be applied to kWh’s which fall within the on-peak period.

ON PEAK SERVICE

The On-Peak period is defined as the hours starting at 2:00 PM and ending at 7:00 PM Monday through Friday for the billing months June through September (Summer Months). The above hours on which the following holidays are observed shall be considered Off-Peak: Memorial Day, Independence Day and Labor Day.

OFF PEAK SERVICE

The Off-Peak period is defined as all hours not included above including all weekends and the billing months of October through May (Winter Months).

DETERMINATION OF BILLING DEMAND

The Billing Demand is the highest 15-minute kW measurement during the current month.

TERM OF CONTRACT

Five (5) years.

RATE

340
